Yuliia Chebotar

FRONTEND DEVELOPER

✉ chebotar609@gmail.com | 🔗 [Linkedin](#) | 🔗 [GitHub](#) | 🌐 [Website](#)

Frontend engineer with expertise in various technologies and almost **3 years of industry experience**. I specialize in creating beautiful and functional UI using a variety of web technologies, including:

- JavaScript / TypeScript
- React / Next.js
- React native (basic knowledge)
- Express.js / NestJS
- HTML5
- CSS3 / SCSS
- MongoDB / PostgreSQL
- Git / GitHub
- Headless CMS Prismic / Payload
- Storybook
- Figma / Photoshop

Soft skills:

- Active participation in all project communications within the team (PMs, BAs, developers, testers);
- Achievement orientation;
- Adaptability (teamwork, loyalty, creativity);
- Critical and strategic thinking;
- Proven experience in collaborating within multinational teams, using **English** as the primary communication language for seamless interaction.

Experience

Front-end Engineer - Freelance, Europe.

Apr 2024 - now.

- **Designed and developed the front-end architecture**, for a smooth and visually engaging user experience;
- **Engineered smooth transitions and advanced animations**, to enhance UI/UX and boost user engagement;
- **Implemented scalable, maintainable code** following best practices for long-term efficiency;
- Integrated and maintained the admin panel using Payload CMS, optimizing content management workflows.

Key Technologies Stack: TypeScript, Next.js, SCSS, GraphQL, REST, Payload CMS.

Fullstack Engineer - ElifTech. Ukraine.

Aug 2022 - Mar 2024(1 year 7 months).

- Maintained communication with the customer's team, providing project quality reports and conducting demo sessions, ensuring alignment with customer expectations and fostering a collaborative working relationship;
- Design, development, and debugging of consumer-based products;
- Played an active role in **onboarding new engineers**, facilitating knowledge transfer, streamlining the onboarding process, and fostering a productive team environment.

Art Gallery Entertainment portal. [Link to prod.](#)

Planned and built the front-end part completely from scratch. Implemented smooth transitions and animation of components. Maintained admin panel in Payload CMS.

Key Technologies Stack: React, Next, GraphQL, Payload CMS, Google Map API, Spotify API, Figma.

Paragliding Enthusiast Social Network

Developed key interfaces and features for a paragliding social network, enabling users to find top jumping spots with real-time weather, directions, events, and reviews. Built User Profile, Reviews, and Complaints & Suggestions sections, enhancing user engagement and community interaction.
